

SVP NATIONAL CHILD SAFEGUARDING STATEMENT

SVP is committed to keeping children safe from harm. We keep children at the centre of our work and promote their wellbeing. Our members, non-member volunteers and staff are committed to creating a safe environment for children and young people to grow and develop. All children will be equally protected from harm regardless of race, ability, ethnicity, or sexual orientation. SVP provides a wide range of educational and recreational activities and services to children under 18 years of age nationally through our network of regions and local Conferences.

SVP Services to Children include:

- Community based creches and childcare services that offer a high-quality service for children aged between 5 months to 12 years, ranging from full-time, part-time, sessional and afterschool.
- Prison Visitor's Centres provides a supportive space, advice and guidance service for children and families visiting others in prison.
- Residential holidays children aged between 7 and 12 and weekend breaks on occasion for smaller groups.
- Family Resource Centres providing book clubs to children from 6 years to 12 years, mental health support workshops for children, activities for children in direct provision, homework clubs, academic tuition and stress management classes for children and play therapy.
- Youth clubs and Youth services providing educational opportunities and social supports to children and young people.
- Young SVP – A youth development programme delivered in conjunction with secondary schools, youth groups and third level colleges.
- Transition Year student placements are supported by the SVP through work experience mainly in retail.
- Visitation programme to support vulnerable groups.

The Society of St Vincent De Paul (SVP) is a volunteer lead national organisation covering the thirty two counties. SVP is committed to safeguarding children by working under the guidance of our national safeguarding policies and procedures. The Children First Act 2015 defines harm of a child as ill treatment, neglect, assault, or sexual abuse, and explains what to do if you are concerned. SVP has procedures to keep children safe from harm when they are using our services, in line with the Children First Act 2015. All our staff, members and volunteers are trained in how to respond to child protection and welfare concerns. We respond to all concerns as quickly as possible with the assistance of the SVP National Designated Liaison Person (DLP) Network with the support of the National Safeguarding Office.

SVP has a strong management structure in place to ensure that the organisation is run well, the work of the Society is overseen by SVP National Management Council and SVP trustees. To ensure compliance with regulations and to continue the commitment to good practice in the area of Safeguarding the SVP has implemented a support mechanism of a National Safeguarding Committee made up of representatives of all regions. Part of the remit of the Safeguarding Committee is to develop a national safeguarding strategy in consultation with Regional Councils, co-ordinate and have oversight of safeguarding within the Society. Child Safeguarding activity within the Society is also supported by the National Network of Designated Liaison Persons with the support of the National Safeguarding Manager, the National Children's Services Manager and National Risk Manager. As part of its commitment to protecting children from harm SVP have commissioned Keeping Children Safe (KCS) International to audit all SVP Children's Services and has successfully completed Level II Certification.

All SVP children's activities and services have a completed Risk Assessment and Child Safeguarding

Statement (available on line and displayed locally in each service) in accordance with requirements of the Children First Act 2015. Each children's service or activity is required to complete a Risk Assessment and service specific Child Safeguarding Statement annually and submit to SVP Regional President who will in turn submit to SVP National Management Committee for compliance purposes. Each of the Service Risk Assessments completed indicate the circumstances of potential harm, the likelihood of harm occurring, how a proper balance must be struck between protecting children and young people and respecting the rights and needs of parents / guardians and families, and where there is a conflict the welfare of the child and young person comes first, and lists the policy, guidance, process and practice required to alleviate the risks.
